SMART MODULARITY

Thanks to our space-saving, modular concept, Cibes lift solutions have an exceptionally short manufacturing and installation time, compared to conventional lifts. Even high-capacity lifts, like the Cibes A8000, are delivered and installed much faster, and at a fraction of the cost.

With more than 70 years in the business, Cibes Lift is the oldest manufacturer of vertical platform lifts in the world. Let our experience guide you to the perfect lift solution!

POWERFUL & VERSATILE

The Cibes A8000 has a rated load of 1000 kg and is certified for the transportation of both goods and people. That fact makes the Cibes A8000 the perfect solution for a wide range of establishments, such as warehouses, offices, restaurants and department stores, but also schools, museums, religious buildings and carehomes.

All images of lifts and colour samples in this brochure are for inspirational purposes only. For critical colour matches, we advise you to use physical colour or material samples.

ADD VALUE TO YOUR BUSINESS

Given that the Cibes A8000 works just as well as an accessibility solution as it does as a transport solution for stretchers, hospital beds and goods, this platform lift has the potential to add great value to your building.

In addition, the small footprint, low top height and reduced lift pit of only 130 mm, make the Cibes A8000 exceptionally fast and easy to install.

EFFICIENT USE OF SPACE

One of the great advantages of our platform lifts, is their efficient use of space. The platform constitutes almost 70% of the total footprint, which makes it possible to fit the Cibes A8000 in a much smaller space than other comparable lifts.

The large platform and extra-wide doors enable the Cibes A8000 to transport bulky goods, such as large pallets, big roll containers or even pallet trucks.

CIBES LIFT GROUP

BRINGING PEOPLE TOGETHER

Founded in 1947, Cibes Lift Group is a world-leading manufacturer of space-saving, modular lifts. High-quality Swedish engineering and great Scandinavian design are the secrets behind our success. All lifts are manufactured in our factory in Sweden and exported to more than 70 countries via a network of 200 certified dealers.
