your Home

Stair Lifts

Are stairs in your home becoming an obstacle for you or a loved one? If you're looking for a smart solution to remain in your home, a stair lift may be the right choice and a sound investment.

A cost effective solution to overcome accessibility barriers with:

- Compact styling for indoor and outdoor settings.
- Easy installation on existing stairs.
- Safe and easy to operate.
- Low running costs.
- Continuous operation during power interruptions.
- Gold Warranty - Five years on major components and two years on parts.

Our stair lifts come in a variety of designs and models. The most suitable one for you will depend on the configuration of your stairs and whether the stair lift will be installed inside or outside. Our stair lifts work in both straight staircases and more challenging situations, such as narrow staircases and stairs with landings. They're also great for navigating garden steps, decks and porches.

Simple, safe and stylish, the indoor and outdoor range of stair lifts allow people the chance to enjoy their own home again and regain their independence.

Designed to move people up and down the stairs effortlessly, stair lifts are incredibly reliable and most people find them very easy to use. The Bruno range includes both an indoor and outdoor model with superior features and performance.

When the day comes that you decide you want to enhance your home with a stair lift you can be confident that Bruno stair lifts will provide you with years of dependable performance.

BRUNO ELAN

BRUNO ELITE

BRUNO ELITE OUTDOOR

BRUNO ELAN

Indoor Stair Lift

The Elan is suitable for straight stairs and delivers a ride which is smooth and quiet. Its compact styling fits onto existing stair risers. Why move home when a stair lift allows safe and effortless travel in complete comfort between levels.

Weight carry capacity up to 136kg.

Safety First

A dual braking system makes the Elan one of the safest stair lifts in the world. The electromagnetic braking system is complemented by a self-locking gear box and overspeed brake which completely ensures your safety. Safety sensors on the foot plate and carriage stop the unit whenever an obstruction is encountered.

Consistent Power

The Elan uses two 12-volt batteries that are powered by a low-profile charger that plugs into any household outlet. A continuous charge along the rail is provided through a full-length charge strip. Access to upstairs and downstairs is never an issue, even when there is a power outage.

Quiet and Compact

Bruno's Elan is the ideal stair lift for today and tomorrow - rack and pinion drive delivers a ride which is smooth and quiet, while a handsome rail hides all mechanical components. In addition, the seat, armrests and footrest all fold up into a compact unit - family and friends will have no problem using the stairs.

Value

Elan offers a long list of standard features that are usually found only on more expensive units. The simplicity in design makes the Elan easier and less costly to install.

Bruno Elan Key Features

Convenient offset swivel seat provides a safe, comfortable exit.

Continuous charge wherever the unit stops on the staircase.

Seat, armrest and footrest all fold up into a compact unit.

Simple and clean installation with two wireless call/send controls.

Generous seat size and width between the armrests with seat belt for added safety.

BRUNO ELITE

Indoor Stair Lift

The Elite offers the finest in streamlined design and is manufactured for straight stairs. With superior elegance and comfort the Elite also offers a more generous seat size, a greater adjustable width between the arm rests and an increased carry capacity.

Weight carry capacity up to 181kg.

Safety First

With sensors that detect any obstacles on the stairs, the Elite moves up and down your staircase with power and efficiency. The locking offset swivel seat makes the entry and exit position easier than ever.

Reliable

Equipped with two 12-volt batteries that are powered by a small, unobtrusive battery charger that plugs into any household outlet, the Elite provides uninterrupted performance, even during a temporary failure of electrical service to your home.

Refinement

The Elite represents more than a decade of research and engineering. With a honeycomb rail design for improved stability, and visual coded diagnostics to instantly analyze the unit's operational status, the Elite is the definition of form and function.

Graceful and Compact

The Elite offers the finest in streamlined, ultra-compact design. Its vertical straight rail installs to within 152mm (6") from the wall. Family members and guests will have no problem using the stairs. The seat height, footrest height and armrest width are adjustable for added comfort. The armrests can be independently flipped up, for easy transfer from a personal mobility device, completing the unit's package of flexible features.

Bruno Elite Key Features

Offset swivel seat makes entry and exit easier than ever.

Safety sensors will safely stop you if obstacles are in your way.

Contoured seat with additional padding offering increased support and seat belt for added safety.

Seat, armrest and footrest all fold up into a compact unit.

Simple and clean installation with two wireless call/send controls.

BRUNO ELITE

Outdoor Stair Lift

Designed for exterior use on straight steps, the Elite Outdoor is a wonderful access solution for your home, flat or seaside batch. With its generous seat size, adjustable arm rests, all weather cover and increased carry capacity you can travel in comfort and style.

Weight carry capacity up to 181kg.

Safety First

With sensors that detect any obstacles on the stairs, the Elite moves up and down your staircase with power and efficiency. The new locking offset swivel seat makes the entry and exit position at the top landing safer and easier than ever.

Refinement

The Outdoor Elite represents more than a decade of research and engineering. With a honeycomb rail design for improved stability, and visual coded diagnostics to instantly analyze the unit's operational status, the Outdoor Elite is the perfect example of form and function.

Performance

The Outdoor Elite is specifically designed for exterior use, providing you with the same quality, comfort and convenience available with Bruno's complete line of stairlifts. Bruno dependability built in!

Reliable

Equipped with two 12-volt batteries powered by a small, unobtrusive battery charger that requires no special electrical wiring, the Outdoor Elite provides uninterrupted performance, even during a temporary failure of electrical service to your home.

Bruno Elite Outdoor Key Features

Offset swivel seat makes entry and exit easier than ever.

Safety sensors will safely stop you if obstacles are in your way.

Seat upholstered specifically for outdoor use with weather-proof protective cover when lift not in use.

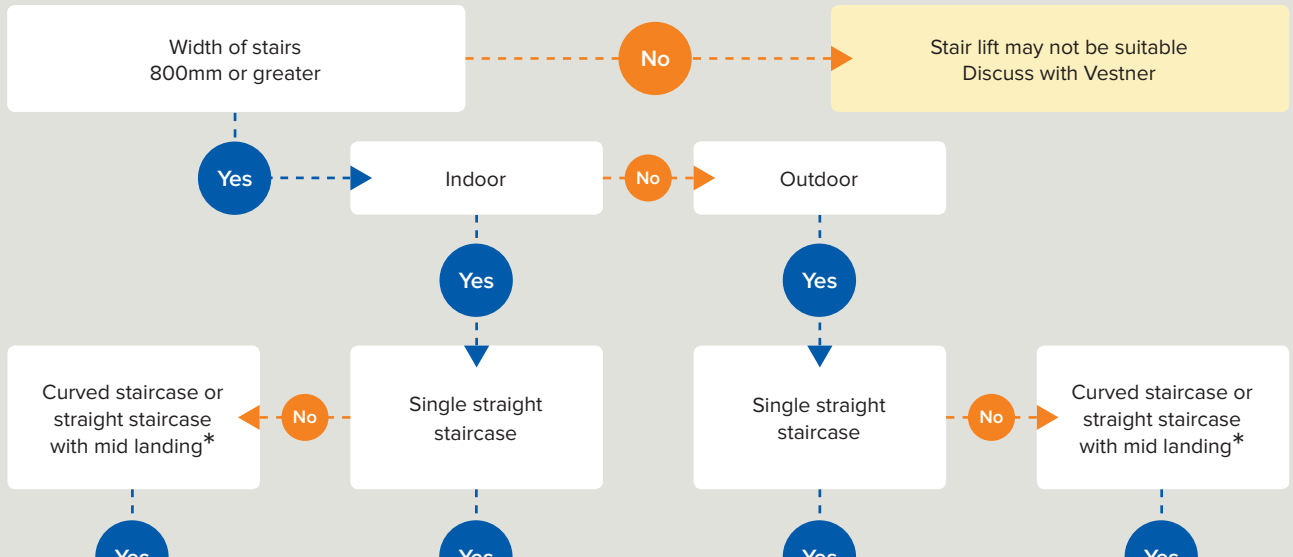

A retractable seatbelt keeps the occupant secure.

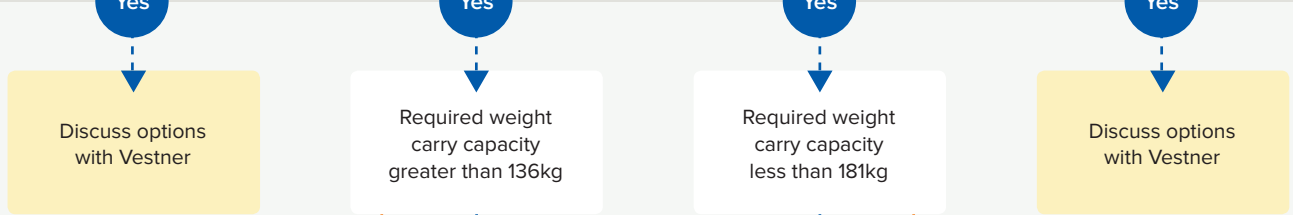

Simple and clean installation with two wireless call/send controls.

Your Guide to Choosing the Right Stair Lift

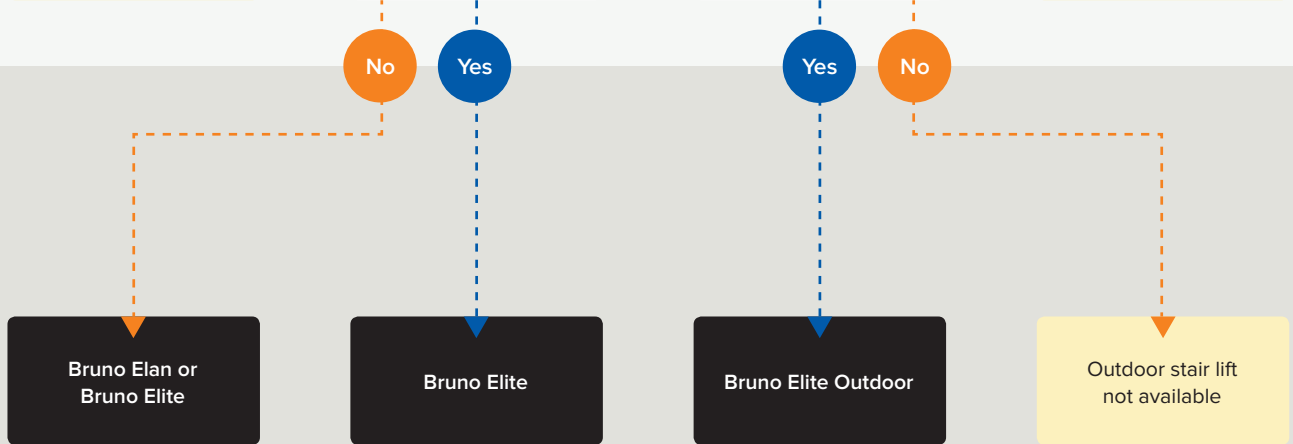

SETTING

CLIENT

SUGGESTED MODEL

NOTES

- * Straight stairs with mid landings require a curved stair lift for bottom to top continuous travel. Options do however include the provision of two single straight stair lifts requiring a mid-landing transfer.
- Internal width between armrests ranges between 444mm - 552mm depending on model - discuss with Vestner.
- Larger seat options are available with an internal width between armrests of 584mm - discuss with Vestner.

Vestner's product range also includes Residential and Commercial Platform Lifts and Elevators
