

Commercial Platform Lifts

Accessibility Solutions with VESTNER

Vestner's range of platform lifts and elevators are an ideal lift choice for providing an access solution for commercial buildings, educational facilities, and retail premises.

Whether it is to meet the access needs of a staff member or student, or to provide public access, particularly where stairs are expected to carry most of the traffic, a platform lift or elevator may be the right choice.

- Suitable for indoor and outdoor settings.
- Limited site preparation - easy installation.
- Range of models suitable for rises now up to 3.6.
- Bring your building up to code.
- New Zealand designed and manufactured by disability access specialists.

Vestner's series of lifts are a safe and cost-effective solution in overcoming accessibility barriers in the commercial environment.

Safety and Compliance

Designed to overcome accessibility barriers with clients needs and safety foremost, the lift series meet compliance requirements and New Zealand disability codes and recommendations.

Lifts have been certified for Access Equipment Safety and Structural Engineering Compliance by independent certifiers and are compliant with the relevant Building Codes.

NEW PL Series

Vestner Open Platform Lifts

The popular lift series is suitable for a range of settings, providing access to different levels. The unobtrusive access solution is preassembled and bolted into place-suitable for all environments.

Models

PL Series: max rise up to 3.6 metres

Features

- Easy to operate controls
- Built-in safety features
- Low running costs
- Compact design
- Suitable for indoors and outdoors
- Range of models to suit specific size and weight requirements
- New Zealand designed and manufactured
- Compliant to the New Zealand Building Code and NZ Standards up to 3.6m
- Nationwide network of installers
- AU Compliance up to 2.0m

Installation

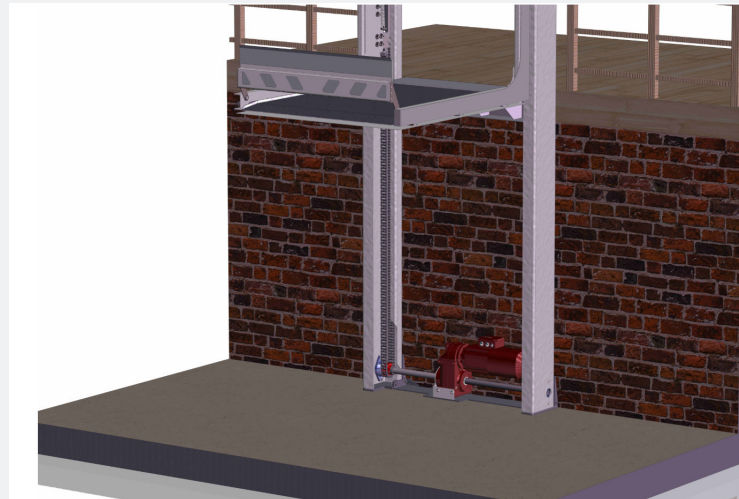

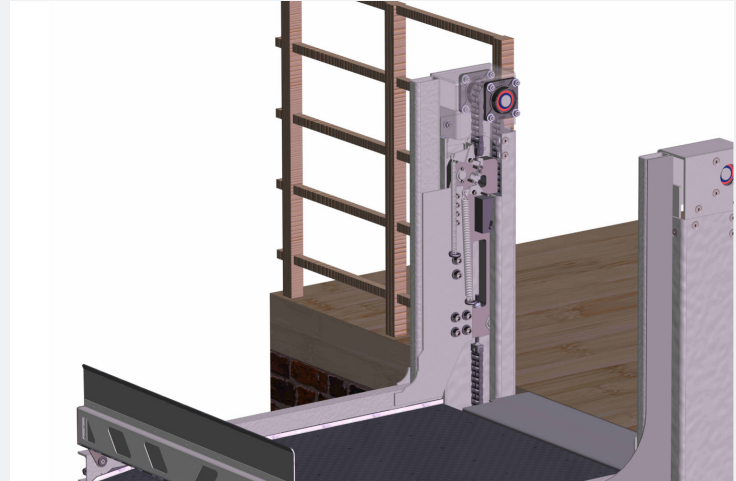

- Free standing design that bolts directly onto a concrete pad or timber floor without the need for pit, bore, or load bearing wall, allowing a wider choice in position. There is a pit-installed option available on some models where the requirement for the small lead-up ramp can be dispensed with.
- Limited site preparation and easy installation
- Simple connection to a standard power supply (RCD protected), with lockable isolation switch located close to lift
- Installation when undertaken by Vestner includes inspection by an independent CBIP Certified Level 2 Lift Inspector (PS4 provided to client)

Warranty

All Vestner platform lifts come with a comprehensive warranty that covers the lift and installation when undertaken by Vestner or one of our subcontractors

Accessories and options

A full range of accessories is available to further compliment the lift and meet specific client needs or requirements of the lift location. Lifts can also be custom designed and manufactured where required.
